KITCHEN MUST

ABOUT US

Since Kitchens Oil Mill was established more than 7 decades ago in 1946, the plant was mostly manually run with a few traditional kachhi plants as the key machinery. With the passage of time we deployed more machinery and automated several functions of the factory. The next step was inevitable - packaged oil to match the growing demands of a modern India. Today we are proud to have deployed state of the art packaging machines to roll out bottles & pouches of Kitchen Must™ - the best oil for every Indian Kitchen.

We strongly believe in providing the best quality products to our customers. The team has regularly invested in technology to maintain hygiene and offer highest quality products.

KITCHEN MUST
